In August 2021, Roblox announced that they would be offering their service in China. ROBLOX later confirmed that they started to accept users from China in September 2021, during beta testing.[62] Due to Roblox's popularity on Steam Greenlight, they were removed from the platform as of October 17th, 2021.

ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.

Roblox has been criticized by parents for issues such as allowing players to have relationships with other users through the game, and allowing players to (unsuspecting) "friend" hackers. Other criticisms include consuming large amounts of bandwidth, and not being child-friendly. The site has been removed from school computers in order to protect children.
