What I would love to see is more updates for games like minecraft, and many more updates. Also to add new games such as an RPG game (something similar to LOTRO) maybe something similar to wow where you come out of the game and control different characters. If we all work together we can get Roblox updated with these new games instead of waiting till now where there are a lot of glitches.

Roblox Suggestions (Steam Community) - This is a helpful site where you can submit suggestions to the Roblox administrators. If there's anything you'd like to see changed or updated, this is where you should post your suggestion. People are constantly submitting suggestions on this page and it can be easy to miss. You'll also receive notifications if anyone liked or commented on your suggestion, so it's easy to know if people were interested in what you posted.

The way Roblox works is by creating an account. In this account, you will be able to make your own avatar that you can customize to look however you want it to. With this avatar, you can go on to explore the different places and games in Roblox. You can interact with other players that you meet in the game and even chat with them. There are many different categories of games that you can choose from to play and I like this because you have a lot of options to choose from. One thing that I think is great about Roblox is that you do not need to pay any money to play it all the time. This is because you can buy Robux in order to use it for building purposes or for upgrading your avatar. This is great because rather than just paying and continuing to play, if people don't want to pay they don't have to.

Roblox offers a tremendous amount of games and features which, once you have played, can easily be overwhelming. If this is the case for you, keep it simple when creating your own roblox games. Choose a theme that is highly in demand right now or create something compatible with the standard ones. A simple game project can be as easy as tapping and holding three fingers on the screen to throw balls of fire at your opponents's faces. Do not worry if no one plays your game, since this will happen when the topic becomes old news among other players.

ROBLOX has also been criticised for its lack of badge incentives for participating in games, or even logging into the site at all. ROBLOX models these badges and credit prizes after the badges found in games like Journey, where a lot of doing nothing gives you a lot of money, which is possibly a reason some players don't log in. ROBLOX also has very few quests to complete that reward badges/credits.
