No microtransactions. Roblox does not have any in-game purchases or microtransactions, meaning that you can play as much as you want without worrying about being charged each time. This works very well as the developers have a different way to monetize their system - which we'll discuss further on into this review.

It has a lot of fun games to play like the space adventures, castle defense and many others. I would say that recommended this game to anyone who likes to play on the computer or laptop or anything else with computers. Overall it's pretty good.

I guess the only reason I still play Roblox is because it's a free game and that I don't have to pay for anything. After all, what's the point of saving up your money if you have to spend it all just to try and get on a game you really want to play? For example, Minecraft gives you tools which can help you dig more efficiently and quickly. But Roblox doesn't provide any sort of help or assistance towards the gameplay itself.
