Please fix the bug that stops you from playing games and then when you log back in the game glitches and makes it start over again. It makes me very frustrated because I spend a lot of time on this app. So please fix this bug! Roblox is an amazing game but there are some issues with it. My main complaint is that when I play games so many people are rude to others but there's no way to report them or mute them and this to me makes Roblox not so fun anymore and sometimes boring because everyone else around me is just being mean when they don't have to be. There are so many cool things about the game I don't know where to begin. But the one thing that I love the most is that you can play with your friends and you can talk to them through

out the game. Let's just get started shall we? I love this because it's so easy and simple. All you have to do is type in your username or email and it will find your account. Then when you are done playing a game and want to do something else click the log out button and you will be brought back to the main screen like when you first logged into Roblox. This makes it easy to restart games or to go back to your profile. The first thing that I noticed right off the bat is that this app is a lot better than the one I had before. Because of this I have my hopes up for the future of Roblox and how it will be in the years to come. This app gives you a ton of stuff but it leaves out some stuff so I decided to make a suggestion about fixing bugs and glitches with the app but not just bugs in general. What I really like about the app is that you don't have to rotate your phone. Sometimes when I play on Roblox I have to get out of bed and turn my phone around because it's upside down because I was in bed. Thanks for eliminating that problem! This is a new feature for the game and personally I think that it is so much better than the old one. It shows you how many fans, bangs, and people are in each group you are in. This makes it easy to know how active you are on Roblox.

I am not a Minecraft addict, but I do enjoy playing that game. However, that is only because my friends and I play it together. Not because of the millions of dollars or diamonds you can get for free on Roblox. People are obsessed with Roblox; my Facebook account was filled with friends who played Minecraft as if they were addicted to crack. They would constantly post pictures about their new lifesize cardboard builds they worked on at home; taking ages-long breaks between each video to watch more videos of Minecraft. We've all had friends who were that addicted to Roblox in our time, but I have never met one like Sinead who was "deeply miserable" because she was deprived of playing it. That was always the case whenever anyone mentioned it, I'm sure; parents would frequently ask me if and how I managed to get my grades, and teachers would always ask me if we had any homework. Sometimes they'd even assign us essays to write about our time on Roblox; even though a few months before everyone stopped doing them unless they were mandatory.

Rated 4 out of 5 by Anonymous from Fun and Great For Fun! I've been playing Roblox for almost 11 years now. It's a great game for kids, teens, and adults. If you didn't get this game then you're missing out! It's so much fun to build things with your friends and play thousands of games.

A game called "The Mad Murderer" has been criticized by Roblox users as being violent. The game allows players to kill other characters by using a knife or a gun. It was reported that German and French users discovered the game while they were in Las Vegas for a conference. In response, Roblox changed the coding of this game so that the users can only use the knife when playing the game, instead of using guns as well. Players who used guns on other players would be banned from Roblox. Roblox stated that they were "going to continue to refine the game".

I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.

In this review, I will go through all the pros and cons of playing roblox, as well as what makes some games better than others in terms of what they offer to their users. Friends. roblox is relatively popular due to it's vast user base, which can be accomplished through the group chat feature that is built in to the game. This feature allows users to communicate with each other, create groups and share things such as games, locations and others. It also allows users to see what their friends are up to in the game. The cross-platform ability of being able to play on tablet or phone means that roblox works very well on mobile devices as well as older computers that do not have much processing power or graphics prowess - whether you're playing on Android, windows 10 or a Mac running OSX.
