Farmville: This is yet another example of a game that doesn't really offer any value at all but still manages to make a ton of money. It's a very bizarre concept which involves fun because you think you're going to become rich by buying fake farm products and selling them or you can become popular by posting pictures of your fake farm products and getting attention from people who want similar things. I mean, if this is what people want then it's really no different than Roblox except with Farmville you're dealing with real money.

On July 27th, 2021, ROBLOX announced that they were going to be having an "open beta" of a new in-game currency system that would allow users to buy and sell virtual currency. This feature was added to the site in 2021, but this was the first time that it was open to everyone. This new system came with a "Queueing" system similar to YouTube's order form, which many game creators saw as useful in saving time from waiting for transactions manually. Users can still trade with each other if they wish to do so.[23]

In ROBLOX, safety is one of the main concerns facing parents. The website can sometimes be a risky place for children because they sometimes come across people being rude, bullying, etc. [138] . ROBLOX is doing its best to make sure that its users stay safe while playing games. First, ROBLOX has safety features in place. A "report user" button is at the bottom right of every player's screen. This button appears if someone is acting rude to you in a game. Pressing it leads you to a page where you can add as much detail as you can about what happened and why it was wrong. The person reading the complaint will then investigate the situation and take necessary actions towards offending players. Players have also found ways to use this button for wrong reasons, like falsely reporting users to get them banned from playing ROBLOX.

As of April 2021, there are over 2,000 games on Roblox. Many of them are "clones" of other players' games made by other players, which can lead to copyright issues if the original creators do not want to share their work. Players may be able to report these games as well as block people who play them from their online profiles or in-game friends list. Some games have caused controversy with their focus on violence, sexuality and racism. However, Roblox staff have stated that the problem lies in the people who play these games, not in the games themselves.

To make money on Roblox is really hard for most gamers, because they need an account in order to sign up for an offer or do a daily ad. Also most offers only require 10 robux , which does not look like that much at all. The 100Robux app has made it easier to make money on Roblox. They may not give you 100 robux at once, but when you have 500 robux in game, another user may ask for 120 robux for an account or a shirt. That would be 60 robux profit. This lets me and other players make money off their skills, and in return they earn virtual currency which they can use to buy premium features or clothing for their character in the game that they are playing.

The more popular games have prices ranging from \$10-\$25 and some people think that it is way too expensive to pay for a game, especially if it doesn't require any physical hardware or extra equipment. Some also specify that when they see a custom hat being sold for \$25 and think it's ridiculous because hats aren't even digital assets and are an accessory.
